Dear Al,

This is to follow up on the discussions you had recently with me and Prof. Lederberg.

We regretfully found your proposal not within the scope of our SUMEX charter. We appreciate the problem of transferring the data base and the programs you already have on the SUMEX PDP-10. We suggest you investigate the possibility of using Prof. Saul Amarel's facility at Rutgers. This should make the transfer relatively painless. It is my understanding that his facility might be available on a fee for service basis. In any case it would be worthwhile contacting him at Department of Computer Science, Rutgers University, New Brunswick, N.J. 08903. Another alternative that might be even more convenient is Bolt, Beranck & Newman, Inc., Cambridge, Mass. They are on Telenet and run under TENEX.

Best regards,

Elliott C. Levinthal
